

## **Press Release**

**6th August 2007, Leamington Spa, UK**

Global-Ventec Laminates UK Ltd is pleased to announce the completion of it's move to new premises. The new building includes warehousing for laminates, pre preg cold storage and fabrication facilities for laminates and pre pregs in a single unit.

The move significantly increases GVL UK's capability to delivery QTA service for rigid, multi-layer and pre preg materials to our European customers and completes the second phase of our European development plan.

For more information on how your business can benefit from our customised supply chain solutions please contact us at...
