### **UK & Europe**

Due to rapid growth in the European market GVL UK Ltd the European subsidiary of Ventec Electronics (Suzhou) Co. Ltd seeks to fill a number of key positions...

#### **Technical Manager (Director Designate)**

The ideal candidate will be UK based and have in depth knowledge of multi-layer PCB manufacturing processes and PCB base materials.

The successful applicant will take responsibility for all in house and customer facing technical activity including process improvements, product approval & technical support. Reporting to the UK Managing Director, the Technical Manager will help shape Ventec's European strategy with overall responsibility for PCB fabricator and OEM approvals. This is an excellent opportunity to join GVL UK Ltd the new and innovative force in the European laminate supply chain. Interested applicants should forward there CV to [mark.goodwin@gvl-uk.com](mailto:mark.goodwin@gvl-uk.com)

#### **Sales Agents (Europe)**

Ventec Electronics is looking to appoint sales agents in all key European markets to help drive sales and capitalise on recent marketing and approval activity. Interested individuals and companies should be able to demonstrate good contacts within the European PCB fabrication market and a successful track record selling technical products to PCB fabricator customers. Supported with direct supplies from China and local inventories the successful applicant will develop flexible and customised supply chain solutions with key European PCB fabricators. Interested parties should contact [mark.goodwin@gvl-uk.com](mailto:mark.goodwin@gvl-uk.com)
